Host: Obelisk farm, Latvia

12.07.2019 - 26.07.2019

It was amazing to see how Gabriela and Fredis are happy to live in contact with Nature. Learning about this, it gave more hope about the future and the alternatives that exist to create a world more sustainable in our days. It is amazing to realise that we have a lot of tools in our hands to transform our vision of progress.

**A project is like a seed,
we need to care and plant it in fertile soil...
and Love will give it the straight to grow.**
