Obelisk Farm

Profile of the host organisation

Obelisk Farm is a hemp family farm nestled in the picturesque countryside of Latvia. Established with a vision to cultivate not only hemp but also a community rooted in eco-conscious practices, Obelisk Farm has become a hub for innovation, education, and environmental stewardship.

Obelisk Farm

Local actors related to the organisation

Obelisk Farm isn't just a farm; it's a thriving community. We believe that education and collaboration are key to sustainable living. Through workshops, events, and partnerships, we empower individuals and organizations to embrace eco-conscious practices and learn about the potential of hemp.

Obelisk Farm

Our success wouldn't be possible without the dedicated individuals and local actors who contribute to our vision:

Community Members: Our local community plays an integral role in our journey. They support our initiatives, participate in events, and share our passion for sustainability.

Partners: We work closely with local businesses and organizations that share our values, fostering a network of like-minded individuals committed to sustainable practices.

Customers: Our valued customers not only enjoy our premium hemp products but also contribute to our mission of sustainability by choosing eco-conscious options.

Learning from an outside view

Having Andrea & Péter at our farm was truly an amazing experience that enriched both our family and themselves (we truly hope so!). The exchange of knowledge, enthusiasm, and a shared passion for countryside living created a dynamic and vibrant learning environment that left a lasting impact on all of us involved.

Learning from an outside view

One of the most remarkable aspects of hosting Andrea & Péter was the mutual learning and growth that occurred. We were able to share our expertise in hemp cultivation, sustainable farming practices, and countryside living, while also benefiting from the unique perspectives, fresh ideas, and diverse backgrounds that Andrea & Péter brought with them.

Learning from an outside view

Andrea & Péter had the opportunity to get their hands dirty, working alongside Andris. This hands-on experience allowed them to apply theoretical knowledge to real-world situations, gaining valuable insights into the challenges and rewards of rural life.

Evaluation

Another unique aspect of this traineeship was the opportunity for Andrea & Péter to connect with Vineta and Mafalda who have previously been at the farm. This connection facilitated a beautiful exchange of experiences, knowledge, and insights. Andrea & Péter were able to learn from the journeys of those who had walked the same paths before them, creating a sense of continuity and shared growth.

Evaluation

Andrea & Péter very quickly became an integral part of our family farm community. We shared meals, stories, and laughter, creating a lasting connection and friendship. We also shared a deep passion for hemp and its potential. Together, we celebrated the versatility and sustainability of this remarkable plant.

As we look back on the amazing experience of having Andrea & Péter at our farm, we are filled with gratitude for the opportunity to be part of their learning journey and for the inspiration they brought to our farm.

Recommendations

- An idea that had been in our minds for some time was the creation of a guide for trainees that included important information to know before, during and after the trainee. And so, together we build a tool that can be used by any host to share information with their trainees. The guide was co-created by us and Andrea & Péter feedback.
