About me

I hold a Master degree in Industrial Engineering. I can speak five European languages. I am interested in rural development and agriculture and I would like to develop sustainable farming in my little castagne tree plantation. I am planning for the future also a small village farm of goats in my country that for the moment is only a project.

What I expect from host organisation

Gaining skills in operating SRD. Gaining more information and support for applying in the future in agriculture and rural grants.

Preferred languages

EN, IT, DE
