About me

Graduated for Mathematics, Master in Administrative Science and certified for Tourism Management.

I am Tatjana, President of a partnership called "Comprehensive Roshnik Partnership".

I am interested in rural development and agriculture as well as consumers. I would like to develop the village area in the administrative unit of Roshnik. We are planning partnerships in order to develop small farms in the future. In our country we cultivate these products: figs, grapes, olives, cherries, apples, wine, raki etc.

What I expect from host organisation

I look forward to a fruitful experience as well as the processing and handling techniques of agricultural or agricultural products that we can apply through partnership in our rural area, which would evoke the area and would have more attention to investment. This training will serve us encourage farmers to make Agroturizem.
