

## A foundation to enhance the well-being of trees and landscapes, FR

Catherine MARQUOT, Toi l'arbre, FR

- **Scale of activity:** national
- **Actor:** Private
- **State of the activity:** started in the end of 2014, ongoing
- **Keywords.** protection of old remarkable trees, creation of new plantations, agro-forestry, sustainable forestry

### Summary

**Support initiatives of general interest about protecting existing trees or creating new plantations (protecting remarkable very old trees, developing agro-forestry and sustainable forestry).**

### Description of activities

Most initiatives supported are initiated by associations. They are small-scale and very concrete, practical, rooted in the local reality. The aim is to communicate about them, hoping they will spread throughout France and Europe.

### Outlook

**Challenges:** discover initiatives which will not be supported by existing financial channels and are worth developing.

**Next steps:** go on supporting initiatives till the financial provision of the Foundation is spent (probably 2017 or 2018), since it is not renewable (it was created after an inheritance).

### Source and contact

**Information gathered at:** the 1st workshop on Sustainable Forest Management (17-20 March 2016)
