

Presentation of the Local Agriculture and Food Policy (PAAC) Plessé

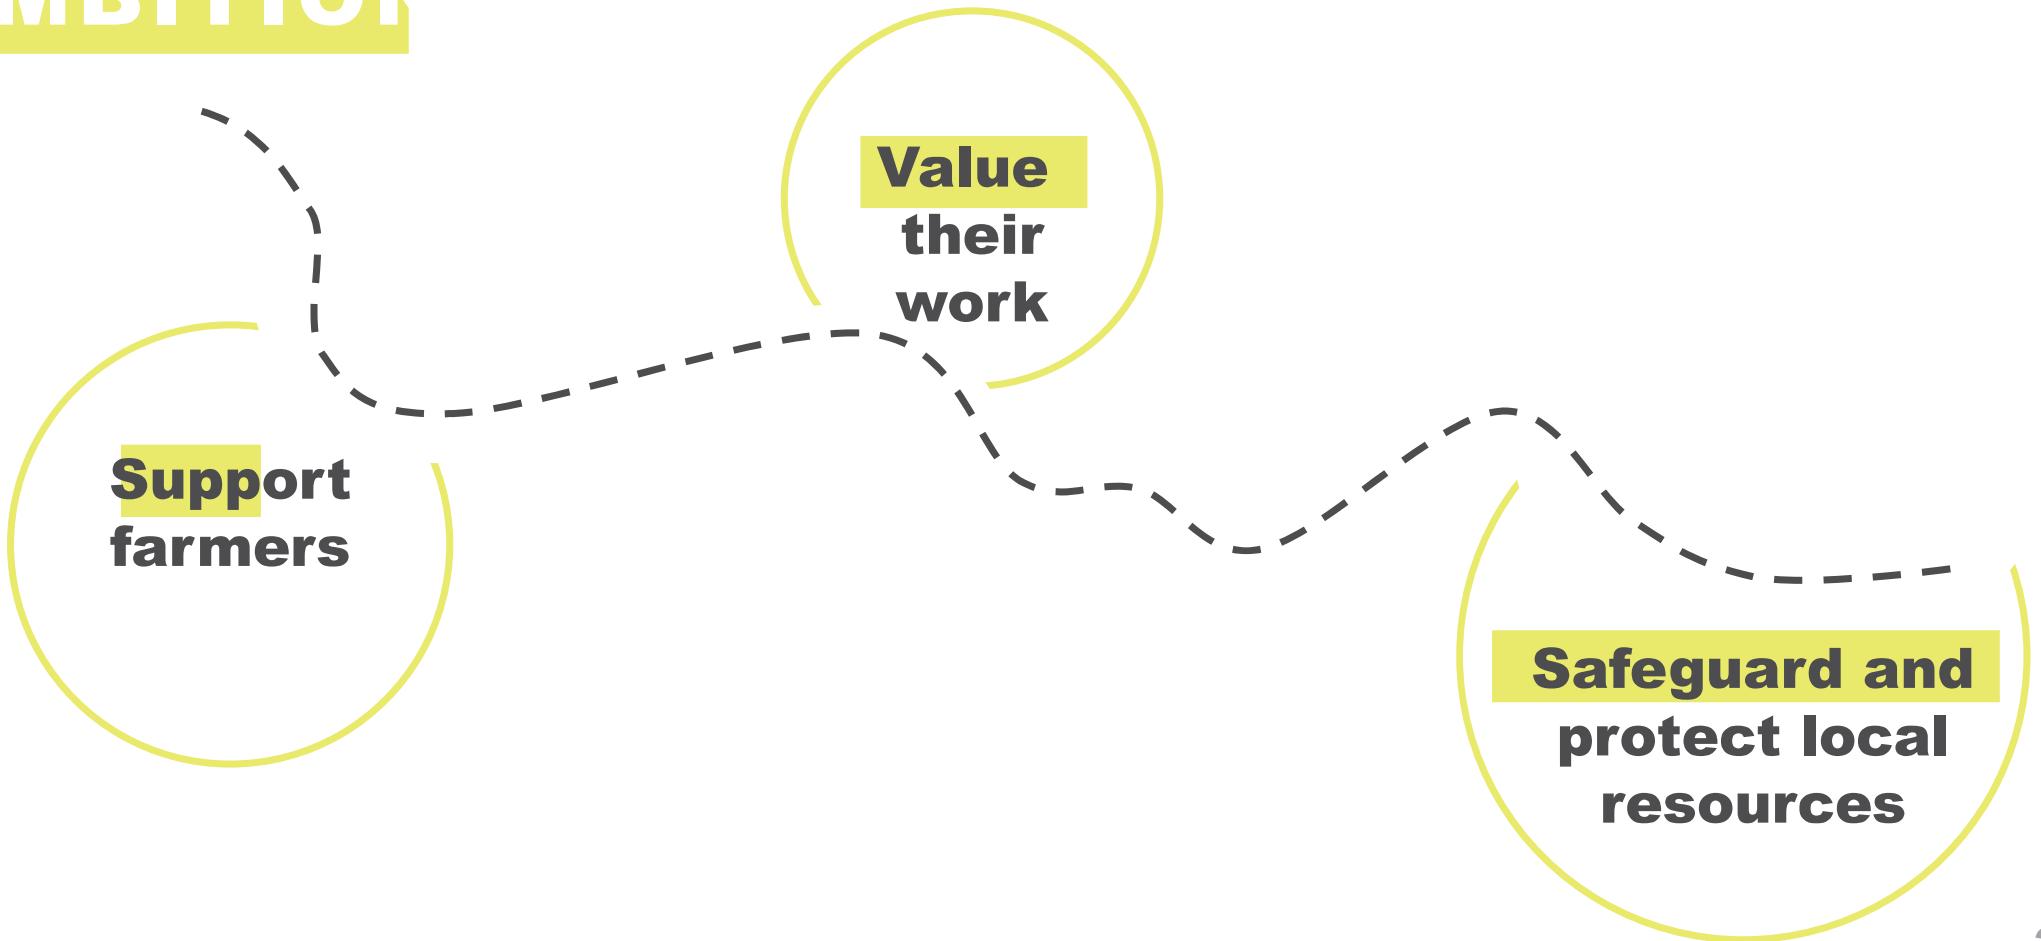

INTRODUCTION

DUR AMBITION

Local Agriculture
& Food Policy

1 • 2 • 3 • 4 • 5 • 6

OBJECTIVES OF THE PAAC^{Local Agriculture & Food Policy}

Spread a positive message about local farming

- **Dynamic** network of **farmers**
- Farmers **willing to welcome** new entrants
- Important **legacy**

Energy of local groups, businesses and craftspersons in Plessé

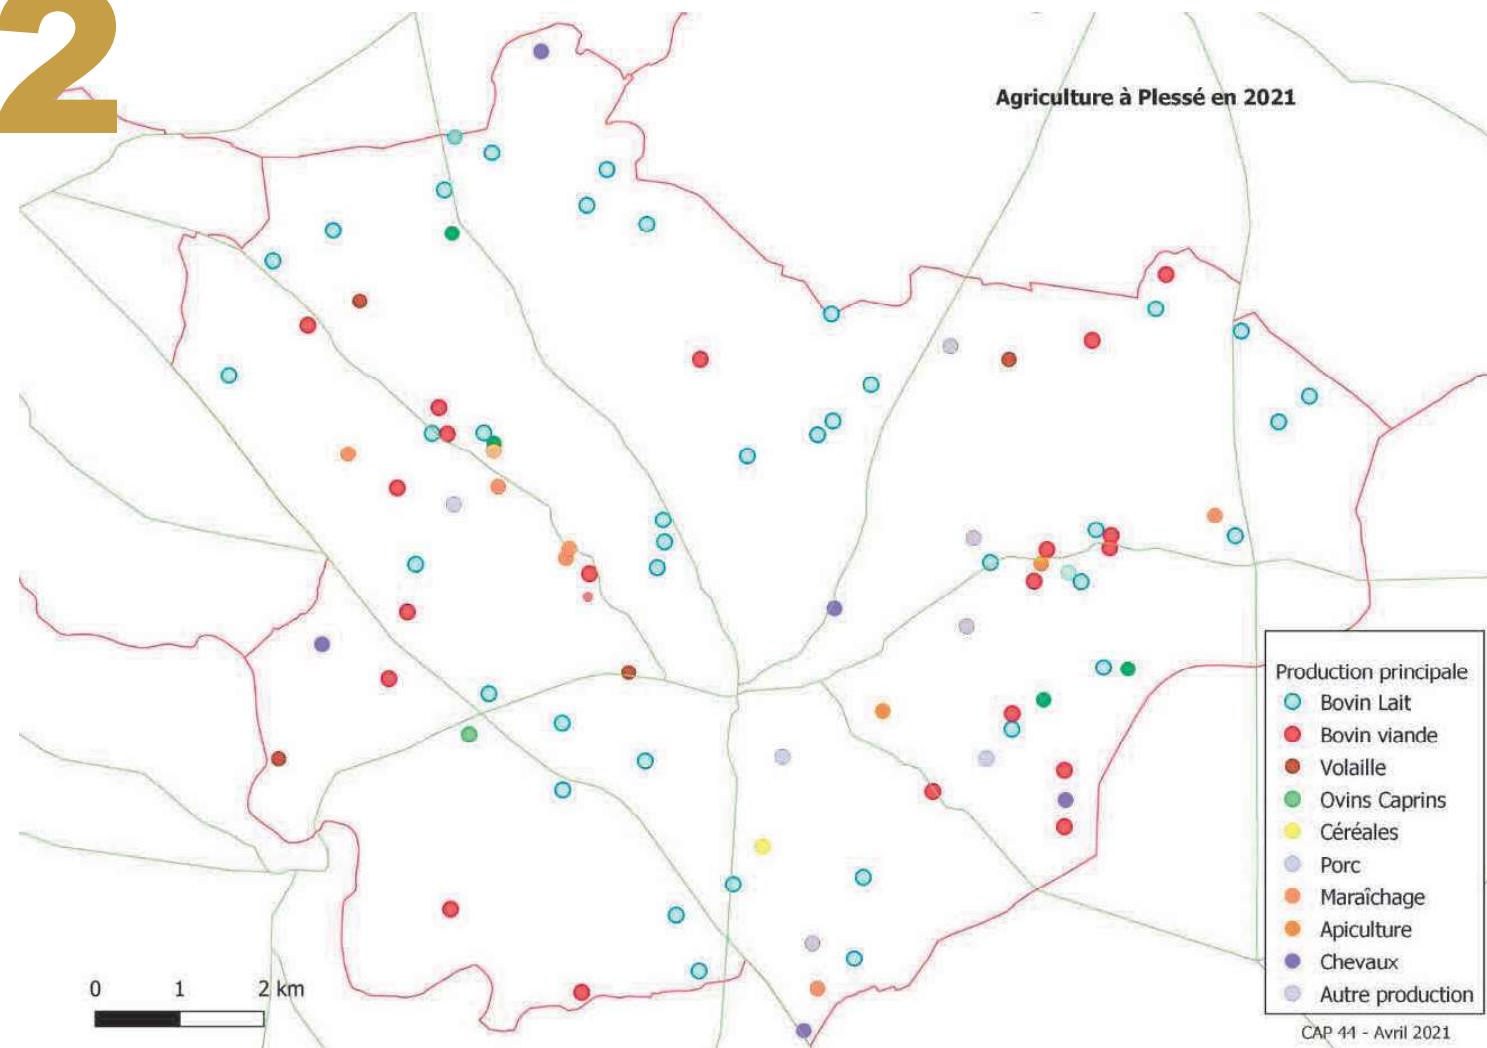

Support economically viable, diverse and sustainable farming

2

- Economic activity to **earn an income**
- Opportunities for **new entrants**
- **Diversification** of production (horticulture, trees) to meet demand
- **Safeguard** endangered breeds
- Preferably **organic**

2

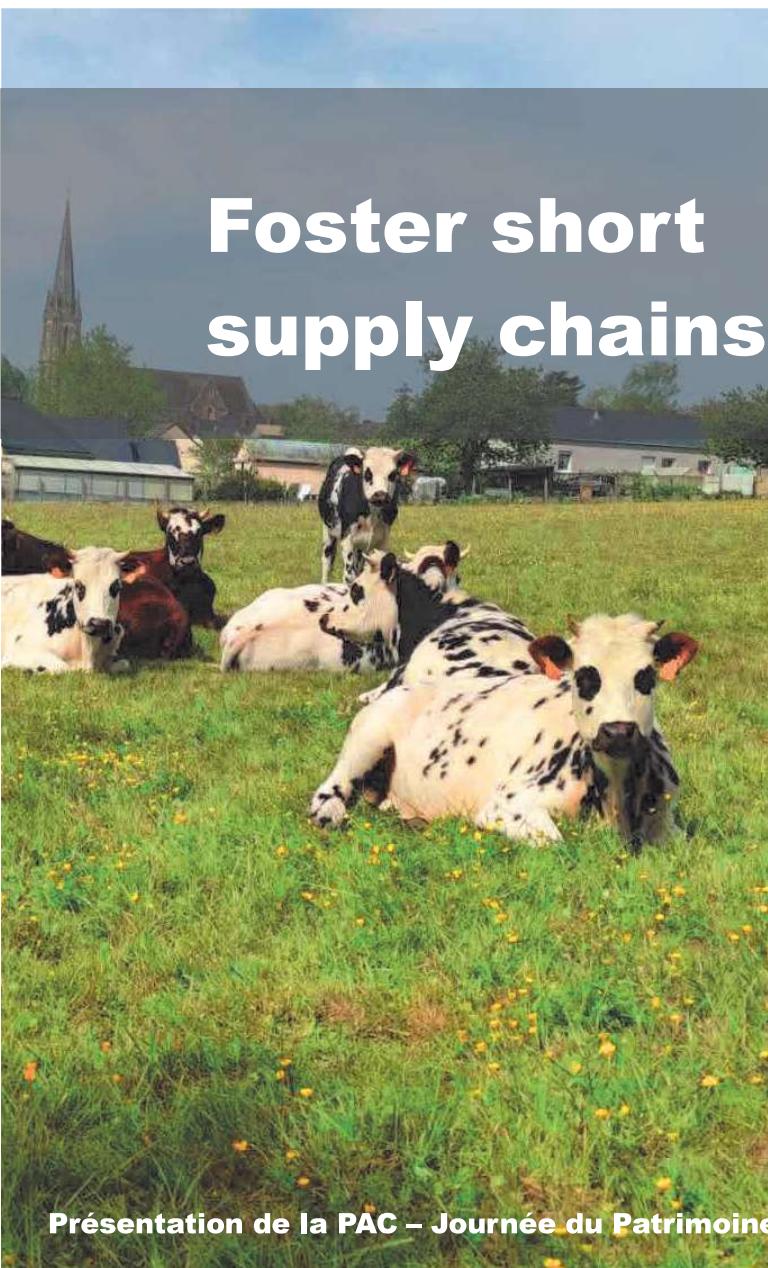

92 farms

48 farmers aged over 55 (36%)

Primarily livestock

- Dairy (43 %)
- Beef (21 %)

3

- New **farmers' shop**
- **School canteens managed by the municipality** favouring organic, local food
- Opportunity to develop **processing facilities**

Maintain our farms

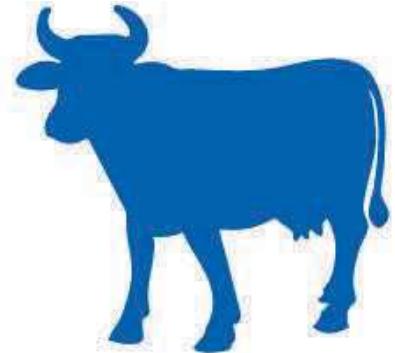

- **1 farmer out = 1 farmer in**
- Support **succession**
- Preserve **farms**
- Protect farming **jobs**

Examples of new entrants supported

1-Horticulture

2-Livestock

Protect natural resources

5

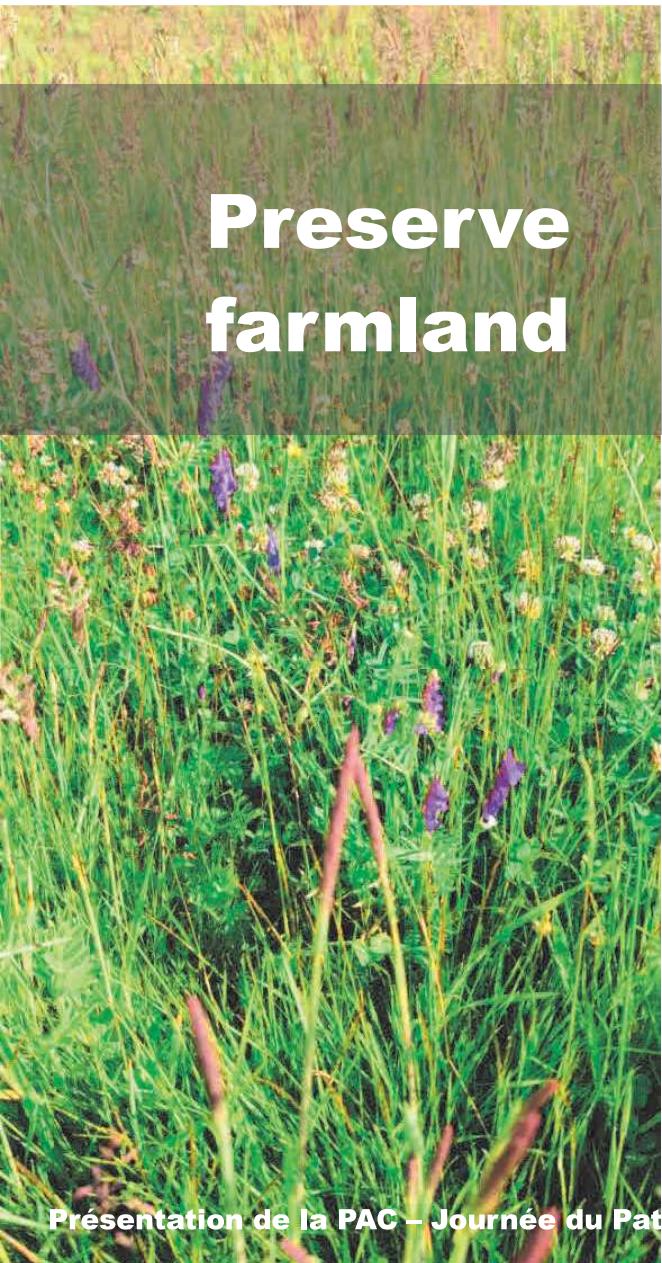

- **Water** management (quality and quantity)
- **Woodland** preservation
- Protection of **biodiversity**

...

(see **woodland inventory 2021-2022**)

Preserve farmland

6
 m^2

- **Monitoring** of land transfers (priority to new entrants)
- **Transparency** of land transfers
- Creation of a **municipal land bank**

Interventions How to preserve farmland?

*Construire une Agriculture
Paysanne Performante et Plurielle*

**Établissement public foncier
de Loire-Atlantique**

DISCUSSION

**What action can each of
us take?**

What tools can be shared?

**Who should manage these
tools?**

...
